

Self-Build

Dreadnought are recognised as the roof tile of choice for the discerning Self Builder. Our tiles have been repeatedly acclaimed with the best Self Build Clay Roof Award. Since the roof is frequently the dominant external feature of a Self Built home, accounting for up to two thirds of the appearance, it is important that the roof is a statement of quality.

The choice of roof tile can impact heavily upon the character and value of a property. The beauty of natural clay colours is unrivalled; an appearance that mellows and improves with age. The artificial colours of concrete disappear with time and the roofscapes of the past 70 years demonstrate this.

Whilst some traditional handmade tiles offer an appealing texture this comes at a substantial increased cost and none offer the range of colour available in Dreadnought Tiles, an alternative bringing substantial financial savings.

Colours

Dreadnought Tiles offer the widest range of natural clay colours available today, ranging from reds,

browns and blues with many multi-coloured brindle tiles in between. The colours of Dreadnought are natural; all colours are entirely the result of the application of high temperature to naturally occurring marl in a controlled atmosphere, without the use of spray on stains or artificial pigments. Inspect our samples, view the completed roofs and see the difference.
